一、Limits of the 10+1 Cooperation framework

- 1, Unquestionable are the positive effects of the 10+1 in promoting Asia Free Trade and Investment
- 2, 10+1 cannot eliminate the Noodle Bowl effect.
- 3, 10+1 can not help mitigate the limits of the lack of the final consumption market in Asia.
- 4, the free trade and investment bonus created by “10+1” is diminishing.

III. Possible Directions of the development of Asia Regional Cooperation

000

1, TPP concluded first, RCEP talks extended, CJK faltered?

2, TPP & RCEP get concluded both, CJK faltered?

3, toika moving forward together?

4, Challenges for ASIA regional economic cooperation.

(1) a TPP without China co-exists with an RCEP without the U.S. How?

(2) Japan is to be joining the three?

(3) evolution of the China-Japan Dispute on Diaoyu Islands.
